Fourth Quarter 2017 Results

Total net revenues for the fourth quarter of 2017 were US\$97.1 million, compared to US\$20.3 million in the corresponding period in 2016.

IVAS and others net revenues were US\$14.5 million, representing a 34.7% increase from the corresponding period of 2016. The increase was mainly due to the revenue from our Renren mobile live streaming service. Monthly unique log-in users of the Renren SNS platform decreased from approximately 35 million in December 2016 to approximately 32 million in December 2017.

Financing income was US\$4.8 million for the fourth quarter of 2017, compared to US\$9.5 million in the corresponding period of 2016. The decrease was in line with the decrease of financing receivable from US\$301.8 million as of December 31, 2016 to US\$125.5 million as of December 31 2017.

Used car sales revenue of US\$77.8 million was generated through one of our subsidiaries conducting a used car retail business, which is a new business that we initiated in the second quarter of 2017.

Cost of revenues was US\$96.9 million, compared to US\$15.9 million in the corresponding period of 2016. The increase was primarily due to the cost of used car sales.

Operating expenses were US\$27.6 million, a 32.5% increase from the corresponding period of 2016.

Selling and marketing expenses were US\$8.4 million, a 53.7% increase from the corresponding period of 2016. The increase was primarily due to an increase in advertising and promotion expenses.

Research and development expenses were US\$7.0 million, a 31.4% increase from the corresponding period in 2016. The increase was primarily due to personnel related expense increases.

General and administrative expenses were US\$12.2 million, a 21.5% increase from the corresponding period in 2016. The increase was primarily due to the increase in the related professional fees for the transaction we announced on April 30, 2018.

Share-based compensation expenses, which were all included in operating expenses, were US\$5.5 million, compared to US\$5.4 million in the corresponding period in 2016.

Operating loss was US\$27.4 million, compared to an operating loss of US\$16.4 million in the corresponding period in 2016.

Non-operating loss was US\$20.6 million, compared to a loss of US\$69.6 million in the corresponding period in 2016.

Loss in equity method investments were US\$4.2 million, compared to loss of US\$6.4 million in the corresponding period in 2016.

Net loss attributable to the Company was US\$54.3 million, compared to a net loss of US\$93.3 million in the corresponding period in 2016.

Adjusted net loss (non-GAAP) was US\$48.8 million, compared to an adjusted net loss of US\$87.9 million in the corresponding period in 2016. Adjusted net loss is defined as loss excluding share-based compensation expenses and amortization of intangible assets.

Fiscal Year 2017 Results

Total net revenues in 2017 were US\$202.1 million, compared to US\$63.4 million in the corresponding period in 2016.

IVAS and others net revenues were US\$51.7 million, representing a 52.0% increase from 2016. The increase was mainly due to the revenue from our Renren mobile live streaming service.

Financing income was US\$29.3 million, compared to US\$29.4 million in 2016.

Used car sales revenue was US\$121.1 million in 2017. There is no comparable figure for 2016 because this was a new business that we initiated in the second quarter of 2017.

Cost of revenues in 2017 was US\$184.4 million, compared to US\$51.8 million in the corresponding period of 2016. The increase was primarily due to the cost of used car sales.

Gross profit in 2017 was US\$17.7 million, a 52.7% increase from US\$11.6 million in 2016. Gross margin in 2017 was 8.8%, compared to 18.3% in 2016.

Operating expenses in 2017 were US\$105.6 million, a 24.8% increase from 2016.

Selling and marketing expenses in 2017 were US\$29.0 million, a 36.1% increase from 2016, primarily due to an increase in advertising and promotion expenses.

Research and development expenses in 2017 were US\$23.7 million, a 14.1% increase from 2016, primarily due to personnel related expense increases.

General and administrative expenses in 2017 were US\$52.9 million, a 24.3% increase from 2016. The increase was primarily due to the increase in share-based compensation expenses and the related professional fees for the transaction we announced on April 30, 2018.

Share-based compensation expenses in 2017, which were all included in operating expenses, were US\$28.0 million, compared to US\$23.5 million in 2016. The increase was mainly due to a modification which repriced the exercise price with respect to options.

Operating loss in 2017 was US\$87.9 million, compared to US\$73.0 million operating loss in 2016.

Non-operating loss was US\$85.4 million in 2017, compared to a loss of US\$100.4 million in 2016. The non-operating loss in 2017 was mainly due to a US\$113.1 million impairment on long-term investments.

Earnings in equity method investments were US\$67.2 million, compared to a loss of US\$18.2 million in 2016. The increase was mainly due to a US\$58.3 million gain on disposal of certain shares of Social Finance Inc.

Net loss attributable to the Company in 2017 was US\$110.4 million, compared to a net loss of US\$185.4 million in 2016.

Adjusted net loss (non-GAAP) in 2017 was US\$82.4 million, compared to an adjusted net loss of US\$161.8 million in 2016. Adjusted net loss is defined as net loss excluding share-based compensation expenses and amortization of intangible assets.

Business Outlook

The Company expects to generate revenues in an amount ranging from US\$136 million to US\$141 million in the first quarter of 2018, representing a 549% to 573% year-over-year increase. This forecast reflects Renren's current and preliminary view, which is subject to change.

Potential Financial Impact on Renren by the Transaction Announced on April 30, 2018

As previously updated in the Company's prior quarterly earnings releases, the Company has, as planned, announced a series of transactions that include a cash dividend by the Company and a private placement by its subsidiary Oak Pacific Investment ('the Transaction') on April 30, 2018. The Transaction is intended to address concerns that Renren may be deemed to be an investment company within the meaning of the Investment Company Act. The Transaction will have a significant impact on the Company's financial statements. Please refer to the Form 6-K filed with the SEC on April 30, 2018 for unaudited pro forma condensed consolidated financial statements, based on the unaudited pro forma condensed consolidated balance sheet as though the Transaction occurred on September 30, 2017, total Renren Inc. shareholders' equity value following the Transaction is currently estimated to range from US\$209 million to US\$340 million⁽²⁾. The Company will update the pro forma condensed consolidated financial statements, which includes the pro forma shareholder's equity value, as though the Transaction occurred on December 31, 2017, at the time when it files its annual report on Form 20-F with the SEC, which is expected to be on or before May 15, 2018.

(2) The Transaction is structured in a manner that leads to significant different results for Renren which are depended on the percentage of the Renren shareholders that are the Eligible Shareholders who validly accept the Offer. Accordingly, the Company has presented two separate pro forma balance sheets in Form 6-K illustrating the following:

- The aggregate dollar amount of the cash dividend to be paid by Renren in the Transaction amounting to \$0 assuming all shareholders of Renren are eligible shareholders and validly elect to waive the cash dividend
- The aggregate dollar amount of the cash dividend to be paid by Renren in the Transaction amounting to \$131 million if no additional shareholders beyond the committed shareholders elect to waive the cash Dividend in respect of any of their shares in Renren.

Refer to Form 6-K filed on April 30, 2018 for additional information including assumptions used in the pro forma calculation.
