The Company anticipates an increase in its revenues of around 14% from the year ended December 31, 2012 to the year ended December 31, 2023. The increase in anticipated revenues was primarily due to the increase in revenue from the SaaS businesses. The Company anticipates a significant decrease in its net loss of around 87% from the year ended December 31, 2012 to the year ended December 31, 2023.

Based on currently available information, the Company expects to report two material weaknesses in the Company's internal control over financial reporting relating to (1) Lack of an integrated and systematic risk assessment and reporting process to identify and assess the financial reporting risks and to ensure significant transactions including investments and non-routine transactions including share-based transactions are accurately recorded and properly disclosed; and (2) lack of evaluations to ascertain whether the components of internal control are present and functioning.
